MAY, 2014 - FEATURED MAP SERVICE: SPECIAL DISTRICTS

In addition to the Map Milwaukee Newsletter, we distribute a "Monthly Featured GIS Service" email. We do this to keep users informed and reminded of available map services and how to use them. For complete <u>documentation</u> of GIS services provided by the City of Milwaukee, and <u>instructions</u> on how to add them as layers to Map Milwaukee applications, be sure to check out the <u>Services page in the Map Milwaukee Portal</u>.

SPECIAL_DISTRICTS

Special_Districts is a map service with layers representing a number of different districts/areas used for various forms of planning and administration by the City of Milwaukee. These districts are often used by various City of Milwaukee departments, but are organized into group layers in this service based on the department or departmental unit that is responsible for defining the boundaries.
